## Research Interests

Machine Learning · Recommender Systems · Information Retrieval · Fairness in ML · Responsible AI

## Education

- 2015-2021 **Ph.D. Computer Science**, *Cornell University*, Ithaca, NY.  
(expected) Advisor: Thorsten Joachims  
Topic: Fairness in Ranking and Recommendation Systems.  
Grade Point Average (GPA)– 4.0
- 2010–2015 **B.Tech.-M.Tech. Dual Degree**, *Indian Institute of Technology (IIT) Kanpur*, India.  
Major: Computer Science and Engineering.  
M.Tech. GPA– 10.0/10.0, BTech. GPA– 9.6/10.0 (Academic Excellence Award for all years)

## Selected Publications

Marco Morik\*, Ashudeep Singh\*, Jessica Hong, Thorsten Joachims. “**Controlling Fairness and Bias in Dynamic Learning-to-Rank**”. In Proceedings of 43rd International ACM SIGIR Conference on Research and Development in Information Retrieval 2020. (\*equal contribution) **[Best Paper Award]**

Ashudeep Singh, Yoni Halpern, Nithum Thain, Konstantina Christakopoulou, Ed H. Chi, Jilin Chen, Alex Beutel. “**Building Healthy Recommendation Sequences for Everyone: A Safe Reinforcement Learning Approach**”. In FAccTRec Workshop at ACM RecSys, 2020. ☞

Ashudeep Singh, Thorsten Joachims. “**Policy Learning for Fairness in Ranking**”. In Proceedings of Advances in Neural Information Processing Systems (NeurIPS) 2019, Vancouver, BC, Canada. ☞

Ashudeep Singh, Thorsten Joachims. “**Fairness of Exposure in Rankings**”. In KDD ’18: The 24th ACM SIGKDD International Conference on Knowledge Discovery & Data Mining (KDD), 2018, London, UK. ☞

Ashudeep Singh, Thorsten Joachims. “**Equality of Opportunity in Rankings**”. At Workshop on Prioritising Online Content at NeurIPS 2017, Long Beach, CA. ☞

Ashudeep Singh, Thorsten Joachims. “**Learning Item Embeddings using Biased Feedback**”. At Causal Inference and Machine Learning for Intelligent Decision Making Workshop at NeurIPS 2017, Long Beach, CA. ☞

Tobias Schnabel, Adith Swaminathan, Ashudeep Singh, Navin Chandak, Thorsten Joachims. “**Recommendations as Treatments: Debiasing Learning and Evaluation**” In Proceedings of The International Conference on Machine Learning (ICML), 2016, New York, NY. ☞

## Research Internships

- January–May 2020 **Google Brain**, *New York, NY*.  
**Safe Reinforcement Learning for Sequential Recommender Systems**  
*Research Internship project mentored by Alex Beutel (Google Brain).*  
Formulated and developed a sequential recommendation framework that considers the long-term well being of the users and proposed a novel Safe Reinforcement Learning (Safe RL) based policy gradient algorithm that provides risk guarantees for the worst-case users.

- May–August **Microsoft Research**, *Montreal, QC, Canada*.
- 2019 **Feedback Loops and Producer-side Fairness in Recommender systems**  
*Research Internship project working with **Fernando Diaz** (FATE Group).*  
 Studied the intertwined phenomenon of *selection bias* and *exposure unfairness* for the producers in recommender system feedback loops. The goal was to specify the conditions under which these effects amplify and to propose algorithms to mitigate these effects.
- May–August **Facebook**, *Menlo Park, CA*.
- 2017 **Active Learning for Multilabel Classification on Newsfeed**  
*Research internship project working with **Khalid El-Arini** (Feed Content Classification Team at Facebook Newsfeed).*  
 Developed an active learning approach to optimize for the trade-off between model accuracy and human labeling effort for a large-scale multilabel classification problem on the Facebook Newsfeed.
- May–August **Microsoft Research Lab**, *New York City, NY*.
- 2016 **Contextual Bandits for Personalization of Notifications in Microsoft Health App**  
*Research internship project working with **John Langford** (MSR NYC) and **Ryen White** (Microsoft Health and MSR Redmond).*  
 Developed a *Contextual Bandits* based approach to personalize reminder and notification messages on the Microsoft Health App to optimize for user's long term health and fitness.

## Awards and Achievements

- 2020 Awarded the **Best Paper Award** at ACM SIGIR 2020.
- 2019 Outstanding TA Award by the Department of Computer Science for CS6780: Advanced Machine Learning class.
- 2019 Awarded the NeurIPS Travel Award to attend NeurIPS 2019, Vancouver, BC, Canada.
- 2018 Awarded the ACM Student Travel Award to attend SIGKDD 2018, London, UK.
- 2015 **Ranked first** in the M.Tech. class of 108 students graduating in 2015 at IIT Kanpur.
- 2011–2015 Awarded **Academic Excellence Award** for outstanding academic achievements at IIT Kanpur for all years.
- 2010–2014 Awarded **CBSE Merit Scholarship** for Professional Studies by Central Board of Secondary Education, India.
- 2012 Recipient of **Summer Undergraduate Research Grant for Excellence (SURGE)**, granted by Dean Resource Planning and Generation, IIT Kanpur.

## Professional Service

- **Program Committee** (PC member) for ACM FAccT Conference 2021, FAccTRec workshop at ACM RecSys 2020, FACTS-IR Workshop at SIGIR 2019, Repl4NLP Workshop at ACL 2018.
- **Reviewer** for ICLR 2021, RecSys 2021, ICML 2019–2021, NeurIPS 2019–2020, AAAI 2020.

## Positions of Responsibility and Extra Curricular Activities

- Co-developed **ViCoRecS: Virtual Conference Recommender System** to provide attendees at KDD 2020 with relevant Networking and Paper recommendations, which was used by ~1000 users. ☑ (2020)
- Organized the **Machine Learning Discussion Group** at Cornell University. ☑ (2016–18)
- Coordinated the PhD Visit Day 2016 for Cornell Computer Science as a **Visit Day Czar**. (2016)
- Student Guide, Academic Mentor, and Link Student for Counselling Service, IIT Kanpur. (2011–13)

## Teaching

- **Teaching Assistant** for CS6780: Advanced Machine Learning, CS4786: Machine Learning for Data Science, CS4780/5780 : Machine Learning for Intelligent Systems at Cornell University. (2015–19)
  - Awarded **Outstanding TA Award** for CS 6780: Advanced Machine Learning. (2019)
- **Teaching Assistant** for CS679: Machine Learning for Vision, and ESC101: Fundamentals of Computing at IIT Kanpur. (2014–15)
